EDUCATION

Shri Ramswaroop Memorial College of Engineering and Management | Lucknow, UttarPradesh 2021 – 2025
B.Tech in Computer Science and Engineering CGPA: 6.24 / 10.0

ST.Thomas College | Lucknow, UttarPradesh May 2021
Intermediate (ISC) Percentage: 88%

ST.Thomas College | Lucknow, UttarPradesh May 2019
High School (ICSE) Percentage: 77%

TECHNICAL SKILLS

Programming: Java, HTML, CSS, JavaScript, Python, C

Coursework: Data Structures & Algorithms(DSA), Database Management System(DBMS), Object-Oriented Programming(OOP's), Design and Analysis of Algorithm(DAA), Operating System(OS)

EXPERIENCE

IBM AI Training Aug 2024 – Aug 2024
Artificial Intelligence

- Assisted in the development of AI algorithms to enhance customer service automation.
- Contributed to a project that reduced processing time by implementing efficient coding practices.

Data Science Sep 2023 – Sep 2023

- Collaborated with a team to analyze datasets and derive actionable insights for business strategies.
- Developed predictive models that improved data-driven decision-making processes by 20%.

Machine Learning | Python 2022

- Built machine learning models in Python by applying data preprocessing, feature selection, and classification/regression algorithms.
- Analyzed datasets and optimized model performance using Python libraries such as Pandas, NumPy and Matplotlib.

PROJECTS

Farming Assistant Web Service | HTML, CSS, JavaScript 2025

- Built a Farming Assistant Web Service using HTML, CSS, JavaScript, and backend technologies.
- Created a platform that connects farmers with suppliers and buyers for direct agricultural product sales.
- Implemented responsive UI components and interactive features to enhance usability.
- Reduced reliance on middlemen by enabling transparent communication and transactions.
- Contributed to system design, frontend development, and backend integration for smooth platform operation.

Weather Forecast Website | HTML, CSS, JavaScript, OpenWeatherMap API 2026

- Developed a responsive Weather Forecast Website using HTML, CSS, JavaScript, and the OpenWeatherMap API.
- Integrated real-time weather data, including current conditions, 5-day forecast, and detailed weather metrics.
- Designed and deployed a mobile-friendly, interactive web application on Vercel with a modern responsive UI.

ACHIEVEMENTS

- **Cloud Core - IBM:** Acquired foundational cloud computing skills through Cloud Core certification from IBM.
- **Data Science for Business - IBM:** Completed Data Science for Business certification by IBM, enhancing analytical and data-driven decision-making skills.
- **Machine Learning with Python - IBM:** Earned Machine Learning with Python certification from IBM, gaining practical machine learning knowledge and skills.
- **Artificial Intelligence Fundamentals - IBM:** Earned Artificial Intelligence certification from IBM, gaining practical knowledge about Artificial Intelligence skills.
